

Bringing the Live United message to children through local Library programs:

Hedberg Public Library Program, Fall 2008

I'm writing in the capacity of a mother whose child just *loved* the Live United program yesterday at the library! Thank you for your great message and the enthusiasm with which you spread it.

My daughter came home and told her daddy all about how you can use your talents or the things you love to do to help people. So those little ears are definitely listening and learning....

Thanks again!
Elizabeth (Madeline's mom)

Madeline is shown making a placemat for the GIFTS homeless shelter for men in Janesville.
